

THE PERFECT MATCH™ GEL POLISH

PERFECT MATCH™ GEL POLISH APPLIES LIKE NAIL POLISH BUT WEARS LIKE GEL. This revolutionary, quick-and-easy gel polish cuts the service time in half and will give a deep sleek finish without chips, smudges, or drying time. The color is long-lasting and chip-resistant. Nails will look flawless for weeks and stay as perfect as day one.

FREE DARE TO WEAR™ NAIL LACQUER CREATES A PERFECT MATCH COLOR TO THE PERFECT MATCH GEL POLISH. This matching nail lacquer can be offered to your clients to perfectly match the colors of both hands & toes.

NOBILITY™ SOAK OFF FORMULA GEL POLISH INSTRUCTIONS:

1. After nail preparations, apply a thin layer of Perfect Match Ultra Thin Varnish Base Gel. Cure 1min in LeChat UV Lamp.

2. For best result shake gel polish bottle well before use. Apply a thin layer of Perfect Match Gel Polish. Cure 1min. If needed, apply second coat and cure for 1min.

3. Remove nails from LeChat UV Lamp and finish it off with Perfect Match High Gloss Top Gel Sealer and cure for 3min.

4. Remove sticky residue with Nobility Gel Cleanser and LeChat lint-free wipe.

PMB01

1. После подготовки ногтевой пластины нанесите один тонкий слой прозрачного геля Nobility. Держим в УФ лампе 1 минуту.

PMS01-06

2. Наносим тонким слоем гель-лак и полимеризуем в УФ лампе 1 минуту. Для достижения более яркого цвета можно нанести второй слой гель – лака и держим в УФ лампе 1 минуту.

PMT01

3. Наносим финиш – гель Nobility Soak off Top Gel Sealer и держим в лампе 3 минуты.

NBGC01

4. Удаляем липкий слой при помощи Nobility Gel Cleanser.

Perfect Match

превосходная альтернатива обычному лаковому покрытию. Революционная система легка и проста в использовании, сокращает время процедуры в два раза, придавая ослепительный блеск ногтям вашего клиента. Гель-лак держится на ногтях до 14 дней без потери цвета, не скалывается.

В результате - красивые ногти, покрытые гелем-лаком всего за 15-20 минут!

Лак для ногтей из системы Perfect Match отличное дополнение вашему клиенту. Лак полностью соответствует цвету гель – лака, что позволяет подкрасить отросшую часть ногтевой пластины.

Ваш клиент всегда сможет иметь красивые ногти даже в домашних условиях.

5. Для снятия гель- лака с натуральных ногтей используем Nobility Remover. Опускаем ногти в жидкость и держим 10-15 минут.

***LeChat's Perfect Match Gel Polish system:
Base/Top/Gel Polish... 0.5oz. – 15ml.***

The Perfect Match Gel Manicure that lasts up to 14days!

Our inspiration, creativity, and innovations are what set us apart from the rest as trendsetters. We're not just another manufacturer, but a true partner and friend in the nail industry.

Yet another break through in nail product development by LeChat Nail Care, Perfect Match Gel Polish provides the benefits of gel: added strength, no chipping, fading, or drying time, with the look, feel and application similar to that of traditional nail polish. Perfect Match Gel Polish can be removed effortlessly by using Nobility Soak-Off Remover; your clients will greatly appreciate the long lasting wear, while keeping their nails looking natural and healthy.

LeChat's Brush-On Application Technique:

Perfect Match Gel Polish has followed in the footsteps of other famous LeChat brand products like the Powder Gel & Nobility Soak-Off Systems by use of the simple Brush-On application technique. Our Perfect Match Gel Polishes & Perfect Match Clear Base/Top Coat Gels each come in a 0.5oz easy brush-on application bottle. With the purchase of each Gel Polish comes a FREE perfectly matched Dare to Wear nail lacquer!

Refill sizes available for the Perfect Match Clear Base and Top Coat only.

Customized service for your clients needs!

LeChat has heard the need and met it! We now offer a Perfect Match Clear Base & Top Coat for the client who requires thicker, smoother looking nails, but still can be removed in up to 10 minutes when soaked in Nobility Soak-Off Remover. Then for the client who prefers the natural look of her nails, but still wants the benefits of Gel Polish, we have Perfect Match Ultra-Thin Varnish Base & High-Gloss Top Sealer that can be removed in up to 15 minutes when soaked in Nobility Soak-Off Remover.

What is needed for a complete Perfect Match Gel Polish

Manicure:

- **Cuticle Pusher, Remover, & Nippers**
- **Nobility Gel Cleanser/Nail Prep Solution & Lint-Free Wipes**
- **Perfect Match Gel Polish Clear Base or Ultra-Thin Varnish Base**
- **Nobility PrimeBond (For maximum adhesion)**
- **Perfect Match Gel Polish Color of choice**
- **Perfect Match Gel Polish Top Coat or High-Gloss Top Coat Sealer**
- **LeChat 36Watt UV Light**

Perfect Match Gel Polish Manicure Application:

1. Begin by performing a dry manicure: Cleanse the hands/nails using Nobility Gel Cleanser/Nail Prep Solution, shape the nails, push back the cuticle & use nippers to remove any dead skin from the cuticle area, (cuticle remover may be added to the cuticle area, be sure to avoid wetting the nail bed. Make sure to clean well with Nobility Gel Cleanser focus around cuticle area before apply gel products).
2. Using a 180 grit white block buffer, gently remove the shine from the natural nail bed. Be sure to get around the cuticle and side walls of the nail.
3. Spray and wipe the nails with the Nobility Gel Cleanser and a lint-free wipe. Apply Nobility PrimeBond to each natural nail bed and let dry.
4. Apply one coat of Perfect Match Clear Gel Base to all 5 fingers (if using a LeChat 36watt light), cap the free-edge and smooth out nails by brushing a complete stroke with pressure onto the nail bed from cuticle to free-edge. If needed, at the same time remove all excess gel. Cure for 1 minute. (Hint: to keep the first layer of Base Gel very thin and for proper adhesion, when remove brush from Base Gel bottle, make sure to empty all excess of gel on both side of brush barely leaving any gel on the brush. First layer of Base gel that goes directly onto the natural nail bed should be very thin. After first layer is cured, if 2nd layer is needed, whatever amount of Base Gel can be applied as needed. On the first layer of Base Gel, make sure to massage the brush into the nail bed back and forth going completely to the right and left of both side walls. Smooth out nails by doing complete brush strokes from cuticle to free edge

- before placing nails into UV light. This will ensure nails are smooth and no build up or thickness of gel at free-edge. This massaging technique will provide proper adhesion and keep the first layer of Base Gel as thin as possible)
5. Choose a Perfect Match Gel Polish color, apply one thin coat to the entire hand up to the cuticle, (avoid getting product onto the skin). Cure for 1 minute.
 6. For a rich, even color, apply a second coat of Perfect Match Gel Polish to each nail and cure for an additional 1 minute.
 7. Finally, apply Perfect Match Top Coat Sealer, enough to allow brush to glide across the nail & cap the free-edge and smooth out nails by brushing a complete stroke from cuticle to free-edge before placing hand into UV light. Cure for 3 minutes.
 8. Spray each nail again with Nobility Gel Cleanser and wipe with a lint-free wipe. Finish with Nobility Vitamin Enriched Cuticle Oil.
